Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' election of the invention of group I with traverse has been noted and considered however the restriction is deemed sound for reasons of record and hereby maintained. It is noted applicants' argument on search burden are not relevant to lack of unity. The election of species is also noted and claims 1-2 will be searched to the extent they read on the elected subject matter of group I. Upon a determination of allowable subject matter the requirement will be reconsidered pursuant to current office practice.

Accordingly, claims 3-6 have been withdrawn as being directed to non-elected subject matter. Claims 1-2 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-2 of the elected species do not recite the limitation a single bond “-” in the definition of “w” in formula (5). There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blakeney et al US 5602260.

Blakeney et al teach 1,4-benzodioxanesulfonic compounds corresponding to recited formula (1). See, for example, column 3 formula (IIB) lines 50+ , not in particular where the R definitions are halogen (read fluorine), column 4 lines 1+. In light of the art as a whole the claimed invention would have been obvious to one of ordinary skill in the art, due to their close structural relationship, the results would not have been unexpected.

No claim is allowed.
